Remuneration Policy and Link to Performance

The Board is responsible for determining remuneration policies applicable to Directors and senior Executives of the Group. The Board policy is to ensure that remuneration properly reflects the individuals' duties and responsibilities and that remuneration is competitive in attracting, retaining and motivating people with appropriate skills and experience. At the time of determining remuneration consideration is given by the Board to the Group's financial performance.

DIRECTORS' REPORT

The Board currently determines the nature and amount of remuneration for Board members and senior Executives of the Group. The policy is to align Director and Executive objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives such as options and performance shares.

The Board policy is to remunerate Non-Executive Directors at market rates based on comparable companies for time, commitment and responsibilities. The Board determines payments to Non-Executive Directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. No independent external advice was sought during the year ended 30 June 2016.

Directors are entitled to draw Director's fees and receive reimbursement of reasonable expenses for attendance at meetings. The Group is required to disclose in its annual report details of remuneration to Directors. The maximum aggregate annual remuneration which may be paid to Non-Executive Directors is \$300,000. This amount cannot be increased without the approval of the Group's shareholders. Please refer below for the remuneration report within the Directors' Report for details regarding the remuneration structure of the Executive Director and senior management.

The table below shows the performance of the Group as measured by loss per share for the last 5 financial years:

As at 30 June	2016	2015	2014	2013	2012

The Carajas Copper Company Limited

Notes to the Consolidated Financial Statements for the year ended 30 June 2016

1. Corporate Information

The financial statements of The Carajas Copper Company Limited and its subsidiaries ("The Carajas Copper Company" or "the Group") for the year ended 30 June 2016 were authorised for issue in accordance with a resolution of the Directors on 30 September 2016.

The Carajas Copper Company Limited is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange. The nature of the operations and the principal activities of the Group are described in the Directors' Report.

2. Summary of Significant Accounting Policies

(a) Basis of Preparation

The financial statements are general-purpose financial statements, which have been prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standards, and other authoritative pronouncements of the Australian Accounting Standards Board and Australian Accounting interpretations. The Carajas Copper Company Limited is a for-profit entity for the purpose of preparing the financial statements. The financial statements have also been prepared on a historical cost basis. The presentation currency is Australian dollars.

(b) Compliance Statement

The financial report complies with Australian Accounting Standards as issued by the Australian Accounting Standards Board and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

(c) Basis of Consolidation

The consolidated financial statements comprise the financial statements of The Carajas Copper Company Limited and its subsidiaries as at 30 June each year ('the Group').

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. The acquisition method of accounting involves allocating the cost of the business combination to the fair value of the assets acquired and the liabilities and contingent liabilities assumed at the date of acquisition.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the Statement of Profit or Loss and Other Comprehensive Income and Consolidated Statement of Financial Position respectively.

Going Concern

This report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

For the year ended 30 June 2016, the Group incurred a net loss after tax of \$4,540,586 and experienced net cash outflows from operating activities of \$260,743. At 30 June 2016, the Group had total liabilities of \$1,047,660 and cash of \$69,533.

The ability of the Group to continue as a going concern is dependent upon the continued support of related parties and the future successful raising of necessary funding through debt or equity.

These conditions indicate a material uncertainty that may cast a significant doubt about the Group's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

Management believe there are sufficient funds to meet the entity's working capital requirements as at the date of this report.

The financial statements have been prepared on the basis that the entity is a going concern, which contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business for the following reasons:

- Subsequent to year end the Group has received \$591,980 via a rights issue and share placement, with an additional \$43,938 expected to be received subject to shareholder approval.
- Creditors totalling \$755,172 (see note 18 (b)) have provided confirmation that they will extend payment terms until such time as the Group has the ability to pay and/or accept equity in settlement of amounts owing.
- The Group believe they can raise additional funding through debt or equity should it be required.

The Carajas Copper Company Limited

Notes to the Consolidated Financial Statements for the year ended 30 June 2016

Should the entity not be able to continue as a going concern, it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements and that the financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or liabilities that might be necessary should the entity not continue as a going concern

(d) New Accounting Standards and Interpretations

The following applicable accounting standards and interpretations have been issued or amended but are not yet effective. These standards have not been adopted by the Group for the year ended 30 June 2016, and no change to the Group's accounting policy is required:

Reference	Title	Summary	Impact on Group's financial report	Application date for Group
AASB 9	Financial Instruments	<p>AASB 9 includes requirements for the classification and measurement of financial assets. It was further amended by AASB 2010-7 to reflect amendments to the accounting for financial liabilities.</p> <p>These requirements improve and simplify the approach for classification and measurement of financial assets compared with the requirements of AASB 139. The main changes are described below.</p> <p>(a) Financial assets that are debt instruments will be classified based on (1) the objective of the entity's business model for managing the financial assets; (2) the characteristics of the contractual cash flows.</p> <p>(b) Allows an irrevocable election on initial recognition to present gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. Dividends in respect of these investments that are a return on investment can be recognised in profit or loss and there is no impairment or recycling on disposal of the instrument.</p> <p>(c) Financial assets can be designated and measured at fair value through profit or loss at initial recognition if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities, or recognising the gains and losses on them, on different bases.</p> <p>(d) Where the fair value option is used for financial liabilities the change in fair value is to be accounted for as follows:</p> <ul style="list-style-type: none"> ▪ The change attributable to changes in credit risk is presented in other comprehensive income (OCI) ▪ The remaining change is presented in profit or loss <p>If this approach creates or enlarges an accounting mismatch in the profit or loss, the effect of the changes in credit risk are also presented in profit or loss.</p> <p>Consequential amendments were also made to other standards as a result of AASB 9, introduced by AASB 2009-11 and superseded by AASB 2010-7 and 2010-10.</p>	The Group has considered standards and determined that there is no impact on the Group's financial statements.	1 July 2018
AASB 15	Revenue from Contracts with Customers	An entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This means that revenue will be recognised when control of goods or services is transferred, rather than on transfer of risks and rewards as is currently the case under IAS 18 Revenue.	The Group has not yet determined the impact on the Group's financial statements.	1 July 2018
AASB 16	Leases	<p>IFRS 16 eliminates the operating and finance lease classifications for lessees currently accounted for under AASB 117 Leases. It instead requires an entity to bring most leases onto its statement of financial position in a similar way to how existing finance leases are treated under AASB 117. An entity will be required to recognise a lease liability and a right of use asset in its statement of financial position for most leases.</p> <p>There are some optional exemptions for leases with a period of 12 months or less and for low value leases.</p>	The Group has not yet determined the impact on the Group's financial statements.	1 July 2019

The Group has not elected to early adopt any new Standards or Interpretations.

All new and amended accounting standards mandatory as at 1 July 2015 have not had an impact on the financials.

The Carajas Copper Company Limited

Notes to the Consolidated Financial Statements for the year ended 30 June 2016

(e) Foreign Currency Translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The functional and presentation currency of The Carajas Copper Company Limited is Australian dollars. The functional currencies of the overseas subsidiaries are Mongolian Tugrik, Brazilian Real and Singaporean Dollars.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Profit or Loss and Other Comprehensive Income.

(iii) Group entities

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each Statement of Profit or Loss and Other Comprehensive Income are translated at average exchange rates (unless this is not a reasonable approximation of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities are taken to shareholders' equity.

When a foreign operation is sold or any borrowings forming part of the net investment are repaid, a proportionate share of such exchange differences are recognised in the Statement of Profit or Loss and Other Comprehensive Income, as part of the gain or loss on sale where applicable.

(f) Plant and Equipment

Each class of plant and equipment is carried at cost less, where applicable, any accumulated depreciation and impairment losses.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance expenditure is charged to the Statement of Profit or Loss and Other Comprehensive Income during the financial period in which it is incurred.

Depreciation

The depreciable amount of all fixed assets is depreciated on a straight line basis over their useful lives to the Group commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:

<u>Class of Fixed Asset</u>	<u>Depreciation Rate</u>
Plant and Equipment	10-25 %

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

Derecognition

Carrying amounts of plant and equipment are derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are recognised in the Statement of Profit or Loss and Other Comprehensive Income.

(g) Impairment of Non Financial Assets Other than Goodwill

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets of the Group and the asset's value in use cannot be estimated. In such cases the asset is tested for impairment as part of the cash generating unit to which it belongs.

The Carajas Copper Company Limited

Notes to the Consolidated Financial Statements for the year ended 30 June 2016

When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses are recognised in the Statement of Profit or Loss and Other Comprehensive Income.

An assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss.

After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

(h) Exploration Expenditure

Exploration and evaluation expenditure incurred by or on behalf of the Group is accumulated separately for each area of interest. Such expenditure comprises net direct costs and an appropriate portion of related overhead expenditure, but does not include general overheads or administrative expenditure not having a specific nexus with a particular area of interest. Each area of interest is limited to a size related to a known or probable mineral resource capable of supporting a mining operation.

Exploration and evaluation expenditure for each area of interest is carried forward as an asset provided that one of the following conditions is met:

- such costs are expected to be recouped through successful development and exploitation of the area of interest or, alternatively, by its sale; or
- exploration and evaluation activities in the area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in relation to the area are continuing.

Expenditure which fails to meet the conditions outlined above is written off, furthermore, the directors regularly review the carrying value of exploration and evaluation expenditure and make write downs if the values are not expected to be recoverable.

Identifiable exploration assets acquired are recognised as assets at their cost of acquisition. Exploration assets acquired are reassessed on a regular basis and these costs are carried forward provided that at least one of the conditions referred to above is met.

Exploration and evaluation expenditure incurred subsequent to acquisition in respect of an exploration asset acquired, is accounted for in accordance with the policy outlined above for exploration expenditure incurred by or on behalf of the entity.

When an area of interest is abandoned, any expenditure carried forward in respect of that area is written off. Expenditure is not carried forward in respect of any area of interest unless the Group's right of tenure to that area of interest is current.

(i) Trade and Other Receivables

Trade and other receivables, which generally have 30 day terms, are recognised initially at fair value and subsequently at amortised cost less an allowance for any uncollectible amounts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off when identified. Intercompany loans are impaired based on the ability of the subsidiaries to generate future cash flows to repay the loans.

(j) Cash and Cash Equivalents

Cash and cash equivalents in the statement of financial position include cash on hand, deposits held at call with banks and other short term highly liquid investments with original maturities of three months or less. Bank overdrafts are shown as current liabilities in the statement of financial position. For the purpose of the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as described above and bank overdrafts.

(k) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the Statement of Profit or Loss and Other Comprehensive Income net of any reimbursement.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money, and where appropriate, the risks

The Carajas Copper Company Limited

Notes to the Consolidated Financial Statements for the year ended 30 June 2016

specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(l) Trade and Other Payables

Liabilities for trade creditors and other amounts are recognised initially at fair value and subsequently at amortised cost, which is the fair value of the consideration to be paid in the future for goods and services received that are unpaid, whether or not billed to the Group.

(m) Income Tax

The income tax expense for the period is based on the profit/loss for the year adjusted for any non-assessable or disallowed items. It is calculated using the tax rates for each jurisdiction that have been enacted or are substantially enacted by the reporting date.

Deferred income tax is provided for on all temporary differences at reporting date between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes. No deferred income tax will be recognised from the initial recognition of goodwill or of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss. Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled.

Deferred income tax assets are recognised for all deductible temporary differences, carry forward of unused tax assets and unused tax losses to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and only recognised to the extent that sufficient future assessable income is expected to be obtained.

No deferred income tax liabilities or assets will be recognised in respect of temporary differences between the carrying value and tax bases of investments in controlled entities if the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary differences will not reverse in the near future. Current and deferred income taxes relating to items recognised directly in equity are recognised in equity and not in the Statement of Profit or Loss and Other Comprehensive Income.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

(n) Issued Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(o) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue is capable of being reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Interest income

Revenue is recognised as the interest accrues (using the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument) to the net carrying amount of the financial asset.

(p) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of The Carajas Copper Company Limited.

(q) Investments in Controlled Entities

All investments are initially recognised at cost, being the fair value of the consideration given and including acquisition charges associated with the investment. Subsequent to the initial measurement, investments in controlled entities are carried at cost less accumulated impairment losses.

(r) Earnings per Share

Basic earnings per share

Basic earnings per share is calculated by dividing the result attributable to equity holders of the Group, excluding any costs of servicing equity other than dividends, by the weighted average number of ordinary shares, adjusted for any bonus elements.

Diluted earnings per share

Diluted earnings per share is calculated as net result attributable to members of the Group, adjusted for:

- costs of servicing equity (other than dividends);

The Carajas Copper Company Limited

Notes to the Consolidated Financial Statements for the year ended 30 June 2016

- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares;

divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus elements.

(s) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST. The net amount of GST recoverable from, or payable to, the Australian Tax Office is included as part of receivables or payables in the statement of financial position.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which is receivable from or payable to the ATO, are disclosed as operating cash flows.

(t) Share Based Payment Transactions

The group provides benefits to individuals acting as, and providing services similar to employees (including Directors) of the group in the form of share based payment transactions, whereby individuals render services in exchange for shares or rights over shares ('equity settled transactions').

There is currently an Employee Share Option Plan (ESOP) in place, which provides benefits to Directors and individuals providing services similar to those provided by an employee.

The cost of these equity settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by using the Black Scholes formula taking into account the terms and conditions upon which the instruments were granted, as discussed in note 19.

In valuing equity settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of The Carajas Copper Company Limited ('market conditions').

The cost of the equity settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award ('vesting date').

The cumulative expense recognised for equity settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the number of awards that, in the opinion of the Directors of the group, will ultimately vest. This opinion is formed based on the best available information at balance date. No adjustment is made for the likelihood of the market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The Statement of Profit or Loss and Other Comprehensive Income charge or credit for a period represents the movement in cumulative expense recognised at the beginning and end of the period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition.

Where the terms of an equity settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any increase in the value of the transaction as a result of the modification, as measured at the date of the modification.

Where an equity settled award is cancelled, it is treated as if it had vested on the date of the cancellation, and any expense not yet recognised for the award is recognised immediately. However if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The cost of equity-settled transactions with non-employees is measured by reference to the fair value of goods and services received unless this cannot be measured reliably, in which case the cost is measured by reference to the fair value of the equity instruments granted. The dilutive effect, if any, of outstanding options is reflected in the computation of loss per share (see note 17).

(u) Discontinued Operations

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operations that has been disposed of or is held for sale, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. When an operation is classified as discontinued, the comparative consolidated statement of profit or loss and other comprehensive income is re-presented as if the operation had been discounted from the start of the comparative period.

The Carajas Copper Company Limited

Notes to the Consolidated Financial Statements for the year ended 30 June 2016

(v) Critical Accounting Estimates and Judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Impairment of Assets

During the year the Directors conducted an impairment assessment of all deferred exploration and evaluation expenditure. As a result of this assessment it was concluded that deferred exploration and evaluation expenditure in relation to exploration projects in Mongolia and Brasil be impaired to nil as at 30 June 2016. The Directors deemed a nil balance to be appropriate given the divestment of all Mongolian assets as announced on 2 March 2016 and the difficulty in obtaining funding to conduct further exploration in Brasil. A total amount of \$50,379 in regards to the Mongolia exploration assets and \$875,848 in regards to the Brazilian exploration assets has been recognised as an impairment loss at year end.

Capitalised exploration and evaluation expenditure

The future recoverability of capitalised exploration and evaluation expenditure is dependent on a number of factors, including whether the Group decides to exploit the related lease itself or, if not, whether it successfully recovers the related exploration and evaluation asset through sale.

Factors which could impact the future recoverability include the level of proved, probable and inferred mineral resources, future technological changes which could impact the cost of mining, future legal changes (including changes to environmental restoration obligations) and changes to commodity prices.

To the extent that capitalised exploration and evaluation expenditure is determined not to be recoverable in the future, this will reduce profits and net assets in the period in which this determination is made. In addition, exploration and evaluation expenditure is capitalised if activities in the area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves. To the extent that it is determined in the future that this capitalised expenditure should be written off, this will reduce profits and net assets in the period in which this determination is made.

Share based payment transactions

The Group measures the cost of equity settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. For options the fair value is determined by using the Black Scholes formula taking into account the terms, conditions and probability upon which the instruments were granted. For shares the fair value is determined by reference to the 15 day VWAP of the shares on the Australian Securities Exchange at the time of issue. For performance shares the fair value of is determined by reference to the 15 day VWAP of the shares on the Australian Securities Exchange at the time of issue as well as Management's assessment of the likelihood of the relevant conversion milestones being met. Refer to note 19 for further detail.

The Group measures the cost of equity settled transactions with vendors by reference to the fair value of the equity instruments at the date at which they are granted. For shares the fair value is determined by reference to the 15 day VWAP of the shares on the Australian Securities Exchange at the time of issue. Refer to note 21 for further detail.

3. Segment Information

Management has determined the operating segments based on the reports reviewed by the Board of directors that are used to make strategic decisions. The entity does not have any operating segments with discrete financial information.

The Board of Directors review internal management reports on a monthly basis that is consistent with the information provided in the Statement of Profit or Loss and Other Comprehensive Income, Statement of Financial Position and Statement of Cash Flows. As a result no reconciliation is required because the information as presented is what is used by the Board to make strategic decisions.

4. Discontinued Operations

(a) Description

On 13 October 2015, the Company announced the sale of its 80% interest in Voyager Mineral Resources LLC, held by the Company's wholly owned subsidiary Voyager Gold LLC. The disposal of Voyager Mineral Resources LLC was deemed not to be a discontinuation of Mongolian operations as at the time of disposal the Company held two remaining subsidiaries in Mongolia.

On 2 March 2016 the Company announced the divestment of the remaining Mongolia assets through a share sale agreement with Rare Elements LLC for the sale of the Company's 100% interest in Voyager Gold LLC, the holder of an 80% interest in KM Mining LLC. The disposal of the remaining assets in Mongolia was deemed to be a discontinued operation.

The Group does not have authorised capital nor par value in respect of its issued capital. Ordinary shares have the right to receive dividends as declared and, in the event of a winding up of the Group, to participate in the proceeds from sale of all surplus assets in proportion to the number of and amounts paid up on shares held. Ordinary shares entitle their holder to one vote, either in person or proxy, at a meeting of the Group.

(d) Capital risk management

The Group's capital comprises share capital, reserves less accumulated losses amounting to an equity deficiency of \$911,897 at 30 June 2016 (2015: net equity of \$267,872). The Group manages its capital to ensure its ability to continue as a going concern and to optimise returns to its shareholders. The Group was ungeared at year end and not subject to any externally imposed capital requirements. Refer to note 18 for further information on the Group's financial risk management policies.

(e) Share Options

¹ The right issue in April 2011 was performed at a discounted price. The number of shares used for the loss per share calculation in 2011 and in subsequent loss per share calculations has been adjusted using an adjustment factor of 1.016 times for comparative purposes.

There is no impact from 30,000,000 options outstanding at 30 June 2016 (2015: 30,000,000 options) on the earnings per share calculation because they are anti-dilutive. These options could potentially dilute basic earnings per share in the future. There have been no transactions involving ordinary shares or potential ordinary shares that would significantly change the number of ordinary shares or potential ordinary shares outstanding between the reporting date and the date of completion of these financial statements.

20. Financial Risk Management

Exposure to interest rate, liquidity and credit risk arises in the normal course of the Group's business. The Group does not hold or issue derivative financial instruments.

The Group uses different methods as discussed below to manage risks that arise from these financial instruments. The objective is to support the delivery of the financial targets while protecting future financial security.

(a) Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities.

The Group manages liquidity risk by maintaining sufficient cash facilities to meet the operating requirements of the business and investing excess funds in highly liquid short term investments. The responsibility for liquidity risk management rests with the Board of Directors. Alternatives for sourcing our future capital needs include our cash position and the issue of equity instruments. These alternatives are evaluated to determine the optimal mix of capital resources for our capital needs. We expect that, absent a material adverse change in a combination of our sources of liquidity, present levels of liquidity along with future capital raising will be adequate to meet our expected capital needs.

Maturity analysis for financial liabilities

Financial liabilities of the Group comprise trade and other payables. As at 30 June 2016 and 30 June 2015 all financial liabilities are contractually matured within 30 days.

(b) Interest Rate Risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair value of financial instruments. The Group's exposure to market risk for changes to interest rate risk relates primarily to its earnings on cash and term deposits. The Group manages the risk by investing in short term deposits.

	2015 \$	2015 \$
Cash and cash equivalents	69,533	24,807

Interest rate sensitivity

The following table demonstrates the sensitivity of the Group's statement of profit or loss and other comprehensive income to a reasonably possible change in interest rates, with all other variables constant.

Judgements of reasonably possible movements	Effect on Pre Tax Earnings Increase/(Decrease)	
	2016	2015
Increase 100 basis points	695	248
Decrease 100 basis points	(695)	(248)

A sensitivity of 100 basis points has been used as this is considered reasonable given the current level of both short term and long term Australian Dollar interest rates. The change in basis points is derived from a review of historical movements and management's judgement of future trends.

(c) Credit Risk Exposures

Credit risk represents the risk that the counterparty to the financial instrument will fail to discharge an obligation and cause the Group to incur a financial loss. The Group is exposed to credit risk from financial institutions where cash is held and from debtors, in particular from those arising from transactions in foreign jurisdictions. The Group's maximum credit exposure is the carrying amounts on the statement of financial position. The Group holds financial instruments with credit worthy third parties.

At 30 June 2016, the Group held cash at bank. These were held with financial institution with a rating from Standard & Poors of -AA or above (long term). The Group has no past due or impaired debtors as at 30 June 2016.

(d) Fair Value Measurement

There were no financial assets or liabilities at 30 June 2016 requiring fair value estimation and disclosure as they are either not carried at fair value or in the case for short term assets and liabilities, their carrying values approximate fair value.

(e) Foreign Currency Risk

Currency risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the entity's functional currency. The Group does not have any material exposure to foreign currency risk.

21. Share Based Payments

(a) Recognised share based payment transactions

Share based payment transactions recognised as operation expenses in the statement of profit or loss and other comprehensive income or exploration expenditure on the statement of financial position during the year were as follows:

	2016 \$	2015 \$
<i>Operating expenses</i>		
Employee and officer share based payments :		
Shares (refer to note 21 (b))	-	600,000
Performance shares (refer to note 21 (b))	-	11,061
Options (refer to note 21 (b))	-	535,192
	-	1,146,253
<i>Exploration expenditure</i>		
Share based payments to vendors , capitalised against exploration asset (note 10) (refer to note 21(c))	-	587,000

(b) Employee and officer share based payments

There were no share based payments to employees or officers during the financial year ended 30 June 2016.

During the previous financial year Mr. Wood, Mr. von Schirnding and Mr. McMaster were issued 10,000,000 fully paid ordinary shares each as approved at a General Meeting of Shareholders held on 4 May 2015. The shares were issued to compensate each Director for the minimal cash remuneration provided for their roles as Directors. The fair value of the shares was determined to be \$600,000 by reference to the 15 day VWAP of the shares on the Australian Securities Exchange at the time of issue.

During the previous financial year Mr. Wood, Mr. von Schirnding and Mr. McMaster were issued 10,000,000 Performance A Shares and 20,000,000 Performance B Shares each as approved at a General Meeting of Shareholders held on 4 May 2015. The shares were issued to compensate each Director for the minimal cash remuneration provided for their roles as Directors. The terms of the Performance Shares are as follows:

- Each Performance A Share will convert into one fully paid ordinary share in the Company upon the Company entering into a contract with a third party which relates to a work program of exploration activities of at least US\$1,000,000; and
- Each Performance B Share will convert into one fully paid ordinary share in the Company upon the Company deciding, in respect of a deposit, to commence mining operations and achieve production on a commercially sustainable basis.

The fair value of the Performance Shares was determined to be \$600,000 by reference to the 15 day VWAP of the shares on the Australian Securities Exchange at the time of issue as well as Management's assessment of the likelihood of the conversion milestones as detailed above being met. As at 30 June 2015 the likelihood has been deemed 50% for Performance A Shares and nil for Performance B Shares. The fair value has been recognized over the vesting period of the Performance Shares which is deemed to be 31 December 2018 when all 90,000,000 Performance Shares convert into one share total if the milestones detailed above have not been met.

The Group has established an employee share option plan (ESOP). The objective of the ESOP is to assist in the recruitment, reward, retention and motivation of employees of The Carajas Copper Company Limited. Under the ESOP, the Directors may invite individuals acting in a manner similar to employees to participate in the ESOP and receive options. An individual may receive the options or nominate a relative or associate to receive the options. The plan is open to executive officers, nominated consultants and employees of The Carajas Copper Company Limited.

The fair value at grant date of options granted under the ESOP for the year ended 30 June 2015 was determined using the Black Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share and the risk free interest rate for the term of the option. The table below summaries options granted for the year ended 30 June 2015:

Grant Date	Expiry date	Exercise price	Granted during the year Number	Exercised during the year Number	Forfeited during the year Number	Balance at end of the year Number	Exercisable at end of the year Number
12/05/2015	31/12/2018	\$0.02	30,000,000	-	-	30,000,000	30,000,000
Weighted remaining contractual life (years)			3.6	-	-	3.5	3.5
Weighted average exercise price			\$0.02	-	-	\$0.02	\$0.02

The model inputs, not included in the table above, for options granted during the year ended 30 June 2015 included:

- (a) options are granted for no consideration;
- (b) share price 15 day VWAP at grant date was \$0.02;
- (c) expected volatility of 120%;
- (d) expected dividend yield of nil; and
- (e) a risk free interest rate of 2.00%.

20. Share Based Payments continued

(c) Share based payments to vendors

There were no share based payments to vendors during the financial year ended 30 June 2016.

During the previous financial year 200,000,000 shares (pre-consolidation) and 9,350,000 shares (post-consolidation) were granted to RD Consulting Limited as part consideration for the 100% acquisition of the Salobo South Copper Project in Brazil. Refer to note 10 for further details. The fair value of the 200,000,000 shares granted was determined to be \$400,000. The fair value of the 9,350,000 share granted was determined to be \$187,000. The fair value for both issues was determined by reference to the 15 day VWAP of the shares on the Australian Securities Exchange at the time of issue as the fair value of the asset acquired was unable to be determined.

22. Contingent Liabilities

There are no known contingent liabilities.

23. Commitments

Services Agreement

The Group entered a service agreement for certain administrative services and office space for a term of three years starting in October 2014 with Palisade Business Consulting Pty Ltd, a company of which Ms. Cowan is a director. The agreement was terminated during the financial year.

On 24 May 2016, the Company announced it was undertaking a fully underwritten renounceable entitlement issue of approximately 204,999,921 fully paid ordinary shares to raise approximately \$615,000. The offer closed on 14 June 2016 with valid acceptances for 26,692,459 fully paid ordinary shares and 12,270,540 shortfall share received. On 8 July 2016, the remaining shortfall of 166,036,924 fully paid ordinary shares was placed.

On 4 August 2016, the Company announced it had executed a Share Sale Agreement with Kiwanda Copper LLC and Lara Exploration Ltd to purchase 100% of the shares in Kiwanda Peru SAC through the issue of 133,333,334 fully paid ordinary shares and 133,333,334 options with an exercise price of \$0.004, expiring two years from issue date. The Share Sale Agreement is subject to conditions precedent which the Company is currently working to complete.

On 5 August 2016, the Company announced the completion of a placement of new shares to sophisticated investors. The placement consists of 66,666,667 fully paid ordinary shares priced at \$0.003 per share with funds to be raised in two tranches. The first tranche of 51,249,981 of fully paid ordinary shares was placed on 5 August 2016 with tranche 2 subject to shareholder approval.

On 12 August 2016, the Company announced the establishment of a share sale facility for the holder of unmarketable parcels of shares. The facility is expected to be finalised by early October.

There were no other known significant events from the end of the financial year up to the date of this report.

25. Dividends

No dividend was paid or declared by the Group in the period since the end of the financial year and up to the date of this report. The Directors do not recommend that any amount be paid by way of dividend for the financial year ended 30 June 2016.

INDEPENDENT AUDITOR'S REPORT

To the members of The Carajas Copper Company Limited

Report on the Financial Report

We have audited the accompanying financial report of The Carajas Copper Company Limited, which comprises the consolidated statement of financial position as at 30 June 2016, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 2 (b), the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of The Carajas Copper Company Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Opinion

In our opinion:

- (a) the financial report of The Carajas Copper Company Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2016 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 2 (b).

Emphasis of matter

Without modifying our opinion, we draw attention to Note 2 (c) in the financial report, which describes the events and conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the consolidated entity's ability to continue as a going concern and therefore, the consolidated entity may be unable to realise its assets and discharge its liabilities in the normal course of business.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 6 to 10 of the directors' report for the year ended 30 June 2016. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of The Carajas Copper Company Limited for the year ended 30 June 2016 complies with section 300A of the *Corporations Act 2001*.

Corporate Governance Statement 2016

This statement has been approved by the Board. It is current as at September 2016.

The Carajas Copper Company's ('Carajas') approach to Corporate Governance

This Statement addresses how Carajas implements the ASX Corporate Governance Council's, 'Corporate Governance Principles and Recommendations – 3rd Edition (referred to as either ASX Principles or Recommendations).

Principle 1: Lay solid foundations for management and oversight

Recommendation 1.1 – *A listed entity should disclose:*

- a) *the respective roles and responsibilities of its board and management;*
- b) *those matters expressly reserved to the board and those delegated to management.*

Role of the Carajas Board ('the Board')

The Board is responsible for the governance of Carajas. The role of the Board is to provide overall strategic guidance and effective oversight of management. The Board derives its authority to act from Carajas' Constitution.

The Board's responsibilities are set out in a formal Charter which the Board reviews every two years. The Charter was most recently reviewed in September 2016.

The major powers the Board has reserved to itself are:

- Appointment of the Chief Executive Officer and other senior executives and the determination of their terms and conditions including remuneration and termination;
- Driving the strategic direction of the Company, ensuring appropriate resources are available to meet objectives and monitoring management's performance;
- Reviewing and ratifying systems of risk management and internal compliance and control, codes of conduct and legal compliance;
- Approving and monitoring the progress of major capital expenditure, capital management and significant acquisitions and divestitures;
- Approving and monitoring the budget and the adequacy and integrity of financial and other reporting;
- Approving the annual, half yearly and quarterly accounts;
- Approving significant changes to the organisational structure;
- Approving the issue of any shares, options, equity instruments or other securities in the Company (subject to compliance with ASX Listing Rules);
- Ensuring a high standard of corporate governance practice and regulatory compliance and promoting ethical and responsible decision making;
- Recommending to shareholders the appointment of the external auditor as and when their appointment or re-appointment is required to be approved by them (in accordance with the ASX Listing Rules); and
- Meeting with the external auditor, at their request, without management being present.

Delegation to the CEO

The Board can choose to delegate to the CEO responsibility for implementing Carajas' strategic direction and for managing Carajas' day-to-day operations.

Recommendation 1.2 – *A listed entity should disclose:*

- a) *undertake appropriate checks before appointing a person or putting forward to security holders a candidate for election, as a director;*
- b) *provide security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.*

The Group does not have a Nomination Committee. The role of the Nomination Committee has been assumed by the full Board operating under the Nomination Committee Charter adopted by the Board.

When considering the appointment of a new Director, the Board may engage the services of an executive recruitment firm to assist identify suitable candidates to be shortlisted for consideration for appointment to the Board and to carry out appropriate reference checks before the Board makes an offer to a preferred candidate.

Newly appointed directors must stand for reappointment at the next subsequent AGM. The Notice of Meeting for the AGM provides shareholders with information about each Director standing for election or re-election including details of relevant skills and experience.

Recommendation 1.3 – *A listed entity should have a written agreement with each director and executive setting out the terms of their appointment.*

New Directors consent to act as a Director and receive a formal letter of appointment which sets out duties and responsibilities, rights, and remuneration entitlements.

Corporate Governance Statement

Recommendation 1.4 – *The company secretary of a listed entity should be accountable directly to the chair, on all matters to do with the proper functioning of the board.*

Carajas' Company Secretary fulfils a broad range of management responsibilities in addition to company secretarial duties. As a result, the formal reporting line of the Company Secretary is to the Chair. For any matter relevant to the company secretarial duties or conduct of the Board, the Company Secretary has an indirect reporting line, and is accountable, to the Chair of the Board.

Recommendation 1.5 – *A listed entity should:*

- a) *have a diversity policy which includes requirements for the board to or a relevant committee of the board to set measurable objectives for achieving gender diversity and to assess annually both the objectives and the entity's progress in achieving them;*
- b) *disclose that policy or a summary of it; and*
- c) *disclose as at the end of each reporting period the measurable objectives for achieving gender diversity set by the board or a relevant committee of the board in accordance with the entity's diversity policy and its progress towards achieving them and either:*
 1. *the respective proportions of men and women on the board, in senior executive positions and across the whole organisation (including how the entity has defined "senior executive" for these purposes); or*
 2. *if the entity is a "relevant employer" under the Workplace Gender Equality Act, the entity's most recent "Gender Equality Indicators", as defined in and published under that Act.*

The Group has not disclosed its policy concerning diversity, its measurable objectives for achieving gender diversity and its progress towards achieving those objectives. The Board continues to monitor diversity across the organization however due to the size of the Group, the Board does not consider it appropriate at this time to formally set measurable objectives for gender diversity.

The Group is committed to workplace diversity and to ensuring a diverse mix of skills and talent exists amongst its directors, officers and employees, to enhance Group performance. The Board has adopted a Diversity Policy which addresses equal opportunities in the hiring, training and career advancement of directors, officers and employees.

In accordance with this policy, the Board discloses there were two women employed in the organization or on the Board of the Group as at the date of this report.

Recommendation 1.6 – *A listed entity should:*

- a) *have and disclose a process for periodically evaluating the performance of the board, its committees and individual directors;*
- b) *disclose, in relation to each reporting period, whether a performance evaluation was undertaken in the reporting period in accordance with that process.*

Evaluation of Board and individual Directors

The Board of Carajas conducts its performance review of itself on an ongoing basis throughout the year. The small size of the Group and hands on management style requires an increased level of interaction between Directors and Executives throughout the year. Board members meet amongst themselves both formally and informally. The Board considers that the current approach that it has adopted with regard to the review of its performance provides the best guidance and value to the Group given its size.

Recommendation 1.7 – *A listed entity should:*

- a) *have and disclose a process for periodically evaluating the performance of its senior executives; and*
- b) *disclose, in relation to each reporting period, whether a performance evaluation was undertaken in the reporting period in accordance with that process.*

The Board of Carajas conducts its performance review on an ongoing basis throughout the year. The small size of the Group and hands on management style requires an increased level of interaction between Directors and senior executives throughout the year. The Board considers that the current approach provides the best guidance and value to the Group given its size.

Principle 2: Structure the Board to add value

Carajas' Constitution provides for a minimum of three directors and a maximum of twelve.

The Directors of Carajas at any time during the financial year are listed with a brief description of their qualifications, appointment date, experience and special responsibilities in the Annual Report.

The Board met regularly throughout the course of the financial year to discuss the Company's operational and financial activities, however no formal meetings were held.

Corporate Governance Statement

Recommendation 2.1 – *The Board of a listed entity should:*

- a) *have a nomination committee which:*
 1. *Has at least three members, a majority of whom are independent directors; and*
 2. *Is chaired by an independent director;**and disclose:*
 3. *the charter of the committee;*
 4. *the members of the committee; and*
 5. *as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or*
- b) *if it does not have a nomination committee, disclose that fact and the processes it employs to address board succession issues and to ensure that the board has the appropriate balance of skills, knowledge, experience, independence and diversity to enable to discharge its duties and responsibilities effectively.*

The Group does not have a Nomination committee. The role of the Nomination Committee has been assumed by the full Board operating under the Nomination Committee Charter adopted by the Board.

Recommendation 2.2 – *The listed entity should have and disclose a board skills matrix setting out the mix of skills and diversity that the board currently has or is looking to achieve in its membership.*

The Group does not have an established board skills matrix on the mix of skills and diversity for Board membership. The Board continues to monitor the mix of skills and diversity on the Board however, due to the size of the Group, the Board does not consider it appropriate at this time to formally set matrix on the mix of skills and diversity for Board membership.

Recommendation 2.3 – *A listed entity should disclose:*

- a) *the names of the directors considered by the board to be independent directors;*
- b) *if a director has an interest, position, association or relationship of the type described in Box 2.3 but the board is of the opinion that it does not compromise the independence of the director, the nature of the interest, position, association or relationship in question and an explanation of why the board is of that opinion and*
- c) *the length of service of each director.*

The skills, experience and expertise relevant to the position of Director held by each Director in office at the date of the Annual Report is included in the Directors' Report. Directors of the Group are considered to be independent when they are independent of management and free from any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of their unfettered and independent judgement.

The Board has accepted the following definition of an Independent Director:

"An Independent Director is a Director who is not a member of management, is a Non-Executive Director and who:

- is not a substantial shareholder (under the meaning of Corporations Act 2001) of the Group or an officer of, or otherwise associated, directly or indirectly, with a substantial shareholder of the Group;
- has not within the last three years been employed in an executive capacity by the Group or another Group member, or been a Director after ceasing to hold any such employment;
- is not a principal of a professional adviser to the Group or another Group member;
- is not a significant consultant, supplier or customer of the Group or another Group member, or an officer of or otherwise associated, directly or indirectly, with a significant consultant, supplier or customer;
- has no significant contractual relationship with the Group or another Group member other than as a Director of the Group;
- is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the Director's ability to act in the best interests of the Group."

In accordance with the definition of independence above, no Directors are considered independent. Accordingly, a majority of the Board is not independent. Given the size of the Group the current Board is deemed appropriate. There are procedures in place, as agreed by the Board, to enable Directors to seek independent professional advice on issues arising in the course of their duties at the Group's expense.

The term in office held by each Director in office at the date of this report is as follows:

Name	Term in office
Mr. Gregory Wood – Independent Non-Executive Chairman	5 months
Mr. Mark Reilly – Independent Non-Executive Director	5 months
Ms. Paula Cowan – Non-Executive Director	5 months

Recommendation 2.4 – *The majority of the Board of a listed entity should be independent Directors.*

The Group does have a majority of independent directors. The Directors consider that the current structure and composition of the Board is appropriate to the size and nature of operations of the Group.

Corporate Governance Statement

As at the date of this report, the Board comprised three non-executive Directors. In accordance with the definition of independence above, two Directors are considered independent. Accordingly, a majority of the Board is independent.

Recommendation 2.5 – *The Chair of the Board of a listed entity should be an independent Director and, in particular, should not be the same person as the CEO of the entity.*

Under Carajas' Constitution, the Board elects a Chairman from amongst the Directors. If a Chairman ceases to be an independent Director then the Board will consider appointing a lead independent Director.

Carajas' Chairman is considered an independent Director. The Directors consider that the current Chairman of the Board is appropriate to the size and nature of operations of the Group.

Recommendation 2.6 – *The listed entity should have a program for inducting new directors and provide appropriate professional development opportunities for directors to develop and maintain the skills and knowledge needed to perform their role as directors effectively.*

The formal letter of appointment and an induction pack provided to Directors contain sufficient information to allow the new Director to gain an understanding of:

- The rights, duties and responsibilities of Directors;
- The role of Board Committees;
- The roles and responsibilities of the CEO; and
- Carajas' financial, strategic, and operational risk management position.

Directors are encouraged to take appropriate professional development opportunities approved by the Board.

Principle 3: Promote ethical and responsible decision making

Recommendation 3.1 – *A listed entity should:*

- a) have a code of conduct for its directors, senior executives and employees; and*
- b) disclose that code or a summary of it.*

Carajas has a Code of Conduct that applies to Carajas and its Directors, employees and contractors (all of which are referred to as "employees" in the Code).

The Code of Conduct sets out a number of overarching principles of ethical behaviour which cover:

- Personal and Professional Behaviour;
- Conflict of Interest;
- Public and Media Comment;
- Use of Company Resources;
- Security of Information;
- Intellectual Property/Copyright
- Discrimination and Harassment;
- Corrupt Conduct;
- Occupational Health and Safety;
- Legislation;
- Fair Dealing;
- Insider Trading;
- Responsibilities to Investors;
- Breaches of the Code of Conduct; and
- Reporting Matters of Concern.

Training about the Code of Conduct is part of the induction process for new Carajas Directors.

Carajas' Code of Conduct is available on Carajas' website.

Corporate Governance Statement

Principle 4: Safeguard integrity in corporate reporting

Recommendation 4.1 – A board of a listed entity should:

- a) have an audit committee which:
 1. has at least three members, all of whom are non-executive directors and a majority of whom are independent; and
 2. is chaired by an independent director, who is not the chair of the board, and disclose:
 3. the charter of the committee;
 4. the relevant qualifications and experience of the members of the committee; and
 5. in relation to each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or
- b) if it does not have an audit committee, disclose that fact and the processes it employs that independently verify and safeguard that integrity of its corporate reporting, including the processes for the appointment and removal of the external auditor and the rotation of the audit engagement partner.

The Group does not have an Audit and Risk Management Committee. The role of the Audit and Risk Management Committee has been assumed by the full Board operating under the Audit and Risk Management Committee Charter adopted by the Board. The Directors consider this as appropriate to the size and nature of operations of the Group.

Charter of the Audit and Risk Management Committee

The Board has formally adopted an Audit and Risk Management Committee Charter but given the present size of the Group, has not formed a separate Committee. Instead the function of the Committee will be undertaken by the full Board in accordance with the policies and procedures outlined in the Audit and Risk Management Committee Charter. At such time when the Group is of sufficient size a separate Audit and Risk Management Committee will be formed.

It is the Board's responsibility to ensure that an effective internal control framework exists within the entity. This includes both internal controls to deal with both the effectiveness and efficiency of significant business processes, the safeguarding of assets, the maintenance of proper accounting records, and the reliability of financial and non- financial information. It is the Board's responsibility for the establishment and maintenance of a framework of internal control of the Group.

Recommendation 4.2 – The board of a listed entity should, before it approves the entity's financial statements for a financial period, receive from its CEO and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

The CEO and the CFO have provided the Board with written assurances that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal compliance and control and that the system is operating effectively in all material respects in relation to financial reporting risks.

Recommendation 4.3 – A listed entity that has an AGM should ensure that its external auditor attends its AGM and is available to answer questions from security holders relevant to the audit.

The external auditor attends Carajas' Annual General Meeting. Shareholders may submit written questions to the auditor to be considered at the meeting in relation to the conduct of the audit and the preparation and content of the Independent Audit Report by providing the questions to Carajas at least five business days before the day of the meeting. No questions were sent to the auditor in advance of the 2015 Annual General Meeting. Shareholders are also given a reasonable opportunity at the meeting to ask the auditor questions relevant to the conduct of the audit, the Independent Audit Report, the accounting policies adopted by Carajas and the independence of the auditor.

Principle 5: Make timely and balanced disclosure

Recommendation 5.1 – A listed entity should:

- a) have a written policy for complying with its continuous disclosure obligations under the Listing Rules; and
- b) disclose that policy or a summary of it.

Disclosure

Carajas' Disclosure Policy describes Carajas' continuous disclosure obligations and how they are managed by Carajas. The Policy is reviewed bi-annually and is published on Carajas' website. It was most recently reviewed in September 2016.

Accountability

The Company Secretary reports to the Board quarterly on matters that were either notified or not notified to the ASX. Directors receive copies of all announcements immediately after notification to the ASX. All ASX announcements are available on the Carajas website.

Corporate Governance Statement

Financial market communications

Communication with the financial market is the responsibility of the Board. Communication with the media is the responsibility of the Board. The Disclosure Policy covers briefings to institutional investors and stockbroking analysts, general briefings, one-on-one briefings, blackout periods, compliance and review as well as media briefings.

The substantive content of all market presentations about the half year and full year financial results and all statements relating to Carajas' future earnings performance must be referred to, and approved by, the Board before they are disclosed to the market.

Principle 6: Respect the rights of shareholders

Recommendation 6.1 – *A listed entity should provide information about itself and its governance to investors via its website.*

Carajas' website provides detailed information about its business and operations. Details of Carajas' Board Members can be found on the website.

The Investor Centre link on Carajas' website provides helpful information to shareholder. It allows shareholders to view all ASX and media releases; various investor presentations; a copy of the most recent Annual Report and Annual Reports for at least the two previous financial years; and the notice of meeting and accompanying explanatory material for the most recent Annual General Meeting and the Annual General Meetings for at least the two previous financial years.

Shareholders can find information about Carajas' corporate governance on its website at under the Corporate link. This includes Carajas' Corporate Governance Plan.

The Corporate Governance Plan includes:

- Board Charter
- Corporate Code of Conduct
- Committee Charters
- Performance evaluation processes
- Continuous disclosure processes
- Risk management processes
- Trading policy
- Diversity policy
- Shareholder communications strategy

Recommendation 6.2 – *A listed entity should design and implement an investor relations program to facilitate effective two-way communication with investors.*

Carajas is committed to communicating effectively with its shareholders and making it easier for shareholders to communicate with the Group.

Carajas promotes effective communication with shareholders and encourages effective participation at general meetings, information is communicated to shareholders:

- Through the release of information to the market via the ASX;
- Through the Annual Report, half yearly report and quarterly reports;
- Through the distribution of the annual report and notices of annual general meeting;
- Through shareholder meetings and investor relations presentations; and
- The external auditors are required to attend the annual general meeting and are available to answer any shareholder questions about the conduct of the audit and preparation of the audit report.

Recommendation 6.3 – *A listed entity should disclose the policies and processes it has in place to facilitate and encourage participation at meetings of security holders.*

Notices of meeting sent to Carajas' shareholders comply with the "Guidelines for notices of meeting" issued by the ASX in August 2007. Shareholders are invited to submit questions before the meeting and, at the meeting, the Chairman attempts to answer as many of these as is practical.

The Chairman also encourages shareholders at the meeting to ask questions and make comments about Carajas' operations and the performance of the Board and senior management. The Chairman may respond directly to questions or, at his discretion, may refer a question to another Director.

New Directors or Directors seeking re-election are given the opportunity to address the meeting and to answer questions from shareholders.

Corporate Governance Statement

Recommendation 6.4 – A listed entity should give security holders the option to receive communications from, and send communications to, the entity and its security registry electronically.

Shareholders have the option of electing to receive all shareholder communications by e-mail. Carajas provides a printed copy of the Annual Report to only those shareholders who have specifically elected to receive a printed copy. Other shareholders are advised that the Annual Report is available on the Carajas website.

All announcements made to the ASX are available to shareholders by email notification when a shareholder provides the Carajas Share Registry with an email address and elects to be notified of all Carajas ASX announcements.

The Carajas Share Register is managed and maintained by Automic Share Registry Services Pty Ltd. Shareholders can access their shareholding details or make enquiries about their current shareholding electronically by quoting their Shareholder Reference Number (SRN) or Holder Identification Number (HIN), via the Automic Share Registry Investor Online Login or by emailing info@automic.com.

Principle 7: Recognise and manage risk

Recommendation 7.1 – A board of a listed entity should:

- a) have a committee or committees to oversee risk, each of which:
 1. has at least three members, all of whom are non-executive directors and a majority of whom are independent; and
 2. is chaired by an independent director, who is not the chair of the board, and disclose:
 3. the charter of the committee;
 4. the members of the committee; and
 5. as at the end of each reporting period the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or
- b) if it does not have a risk committee or committees that satisfy (a) above, disclose that fact and the processes it employs for overseeing the entity's risk management framework.

The Group does not have an Audit and Risk Management Committee. The role of the Audit and Risk Management Committee has been assumed by the full Board operating under the Audit and Risk Management Committee Charter adopted by the Board.

Details of the structure and Charter of the Audit and Risk Management Committee are set out in Recommendation 4.1.

Recommendation 7.2 – The board or a committee of the board should:

- a) review the entity's risk management framework at least annually to satisfy itself that it continues to be sound; and
- b) disclose, in relation to each reporting period, whether such a review has taken place.

Risk Management Policies

Carajas has a number of other policies that directly or indirectly serve to reduce and/or manage risk. These include, but are not limited to:

- Directors and Executive Offices' Code of Conduct
- Code of Business Conduct
- Dealing in Company Securities
- Communications Strategy
- Disclosure Policy
- Risk Management and Internal Control Policy

Roles and responsibilities

The Risk Management Policy, and the other policies listed above, describes the roles and responsibilities for managing risk. This includes, as appropriate, details of responsibilities allocated to the Board.

The Board is responsible for reviewing and approving changes to the Risk Management Policy and for satisfying itself that Carajas has a sound system of risk management and internal control that is operating effectively. The Board annually reviews and approves Carajas' main risk exposures and the mitigating actions.

Recommendation 7.3 – A listed entity should disclose:

- a) If it has an internal audit function, how the function is structured and what role it performs; or
- b) If it does not have an internal audit function, that fact and the processes it employs for evaluating and continually improving the effectiveness of its risk management and internal control processes.

The Group does not have an established internal audit function given the size of its current operations. The risk management functions of the board are summarised under recommendations 7.1 and 7.2.

Corporate Governance Statement

Recommendation 7.4 – A listed entity should disclose whether it has any material exposure to economic and social sustainability risks and, if it does, how it manages or intends to manage those risks.

The Board of Carajas informally monitors and manages the Groups exposure to economic, environment and social responsibility risks. The Board considers that the current approach that it has adopted with regard to the sustainability risk management process is appropriate to the size and nature of operations of the Group.

Principle 8: Remunerate fairly and responsibly

Recommendation 8.1 – A board of a listed entity should:

- a) have a remuneration committee which:
 1. has at least three members, all of whom are non-executive directors and a majority of whom are independent; and
 2. is chaired by an independent director, and disclose:
 3. the charter of the committee;
 4. the members of the committee; and
 5. as at the end of each reporting period the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or
- b) if it does not have a remuneration committee, disclose that fact and the processes it employs for setting the level and composition of remuneration for directors and senior executives and ensuring that such remuneration is appropriate and not excessive.

The Board is responsible for determining and reviewing compensation arrangements for executive directors. The Board has formally adopted a Remuneration Committee Charter however given the present size of the Group, has not formed a separate Committee. Instead the function will be undertaken by the full Board in accordance with the policies and procedures outlined in the Remuneration Committee Charter. At such time when the Group is of sufficient size a separate Remuneration Committee will be formed.

There is no scheme to provide retirement benefits, other than statutory superannuation, to non-executive Directors.

Recommendation 8.2 – A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.

Carajas' remuneration structure distinguishes between non-executive Directors and others. A Remuneration Report required under Section 300A(1) of the Corporations Act is provided in the Directors' Report of the Annual Report.

Recommendation 8.3 – A listed entity which has an equity-based remuneration scheme should:

- a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and
- b) disclose that policy or a summary of it.

Carajas does not have a policy on whether participants in equity based remuneration schemes are able to enter into transactions which limit the economic risk of participating in those schemes as the Group does not have an equity based remuneration scheme.
